WORK EXPERIENCE

Software Engineer I | Amala Cloud Solutions Ltd, Abuja (Remote) | Nov. 2024 - Present.

Technologies: React.js, Typescript, Zustand, Google Cloud Platform (GCP), CI/CD (Github Actions), Git, Bruno, Swagger UI, Postman, Tailwind CSS,

- Translated high-fidelity UI/UX designs into scalable and responsive web applications, optimizing load time and maintainability.

- Crafted, updated, and maintained client websites and web applications, enhancing web presence and increasing user retention based on client recommendations.
- Implemented Zustand for easy and efficient state management.
- Configured CI/CD pipelines using Github actions for seamless update of application and reduced downtime.
- Deployed test and live environments on Google Cloud Platform and Azure for streamlined maintenance and updates and availability.
- Engaged in team training, product discovery, code reviews, and brainstorming sessions to enhance communication, cooperation, and drive company objectives.

Frontend Developer | Acumen Digital, Lagos (Remote) | Oct. 2023 – Nov. 2024 Technologies: React.js, WordPress, Tailwind CSS

- Designed and implemented responsive features and queries to provide a consistent and seamless user experience across diverse mobile device sizes.
- Contributed to designing and developing web-based user interfaces, delivering highly responsive web applications using React.js.
- Teamed up with backend developers and product managers to create high-performing, fully functional websites. Crafted modular, reusable components with Vue.js and React.js to boost code maintainability and scalability.
- Developed and maintained WordPress websites to meet client's requirement.

Frontend Developer | Lotus Beta Analytics, Lagos (Hybrid) | Aug. 2022 – Oct. 2023 Technologies: React.js, Typescript, SPFx, Tailwind CSS

- Developed and optimised responsive web applications using React, CSS, SCSS, TypeScript, and Next.js, enhancing user experience and improving load times.
- Engineered custom SharePoint solutions using SharePoint Framework (SPFx) and React, boosting team productivity and streamlining information sharing.
- Designed and implemented comprehensive admin dashboards using React, providing real-time insights into user activity and enabling data-driven decision-making.
- Utilized SharePoint's content management capabilities alongside custom React components to enhance information sharing and collaboration across the organization.
- Contributed to the development of reusable components and libraries, accelerating project delivery times and ensuring consistency across applications.
- Optimized application performance through code refactoring and implementation of best practices, resulting in an improvement in overall system efficiency.

Frontend Developer | Scillafield Solutions Limited (Remote) | Sept. 2021 – Aug. 2022 Technologies: React.js, Vue.js, Tailwind CSS, WordPress.

- Built and optimized secure, user-friendly applications using React.js, driving significant advancements in performance and user satisfaction.

- Developed and deployed responsive interfaces with React.js, Vue.js, and Bootstrap, ensuring consistent functionality across diverse devices and browsers.

Frontend Developer | Stutern Graduate Accelerator (Intern - Remote) | Oct. 2020 – Aug. 2021

Technologies: React.js, Vue.js.

- Teamed up with backend developers and product managers to create high-performing, fully functional websites. Crafted modular, reusable components with Vue.js and React.js to boost code maintainability and scalability.
- Built and optimized dynamic web components and applications, creating engaging and responsive user interfaces with HTML, CSS, JavaScript, and top-tier frameworks such as React.JS, Vue.JS, and TypeScript.
